

Keep Saskatchewan Public Activist Training Conference April 20 – 21, 2015

Saskatoon | Delta Bessborough

Saskatchewan has lost public services to privatization, and many more are under threat.

Privatization increases costs, hands over control to for-profit corporations at the expense of Saskatchewan people, and threatens good jobs in our communities.

It's time we all got more active and talk with our neighbours, friends and family members about the impact of privatizing our public services – before it is too late.

Each and every one of us can help protect public services from privatization.

Register today for the *Keep Saskatchewan Public – Activist Training Conference*.
