**THINK POLITICS
DOESN'T
MATTER?**

THINK AGAIN!

Politicians make decisions all the time that impact our lives. The people we send to represent us can affect the wait times in our hospitals, the supports our children have access to at school, the quality of the air we breathe, and much more.

So let's get involved. Let's elect people who believe in the work we do.

The Political Action Conference is a chance for you to learn more about the impact of the provincial government. Together, we'll learn to engage in political action. We'll do election and campaign training, and we'll even do some hands' on community contact.
